

15

elate

When you consider the hair-raising
Thrills of the Peacepath, consider
The last time you allowed yourself
To be elated? Elation seems like it
Sticks around for a while, perhaps
Even long enough to empower you
To try something new, to try harder
At something you're finding you've
Mastered, or to invite another along
As you experiment with the heady
Elation of a new journey. Being elated
Means that someone is going to
Notice and be drawn toward you and
And the invitation you extend to Peace.
